The President will kindly observe that in a temporary establishment, such as that working in the City Drainage Project, the scale of salaries would vacilate from time to time, as men are withdrawn, transferred or substituted in the exigencies of work and that a rigid scale fixing the salary of each man is undesirable and impossible to meet changing conditions and to provide for small increments to encourage hard work.

Government may therefore be asked to sanction the amount Rs 450/- for Field Establishment, Rs. 145/- for Office Establishment and Rs. 272/- for additional establishment without laying do n a rigid scale under each amount sanctioned

This would fix the total expenditure but would leave some latitude for withdrawals by and for transfers to the P W D and for change if necessary in personal of the staff and would also provide for small increments to deserving men At present, any little change in the cadre without increasing the total amoun sanctioned appears to require, that Government be troubled for sanction and this has to be done only too frequently "
